

COVID Secure Compliant

Complying with Government guidelines to manage the risk of Covid-19

- Disinfecting **High Touch Point Areas** such as door handles, phones and light switches
- Only using **proven & certified products** that kill Coronavirus
- All staff are equipped with PPE such as masks, gloves and goggles where required
- **Full risk assessments carried out** to establish high touch point areas and other areas which may be high risk
- Avoiding physical greetings such as hand shakes to avoid the chances of passing viruses between staff and colleagues
- Keeping to the **2 metre rule** and where this is not possible we will ensure a **minimum of 1 metre** distance to manage transmission risk
- Correct disposal of gloves and other materials at all times
